

The Parable of the Wheat and the Tares Activity Page 1

In the parable, the farmer wants to grow good wheat. In our life, we want to grow good things, too! But sometimes the devil plants bad things in our life to stop us from growing good things. Between the wheat, write or draw some bad things that have come up in your life. Then color the wheat (or write good things on each wheat head). Make it beautiful, to remind yourself to focus on the good!

Keep growing good fruit!
